Sir:

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

On February 1, 2007, an Office Action was issued in the above-identified Inventor's co-pending Application Serial No. 10/665,367, filed September 22, 2003, in which Examiner Holmes rejected claims 1-19 and 28-29 on the basis of statutory double patenting under 35 U.S.C. §101 in view of claims 1-21 in the present, above-identified application.

After considering the claims of the '367 application with respect to the claims pending in the present application, the undersigned consulted with Swedish counsel about these two applications.

Swedish counsel, who drafted the present application and the '367 application, explained that when the present application was prepared for filing, they overlooked the '367 application. The present application is the U.S. national phase of PCT Application No. PCT/SE03/01464. The PCT application was filed on September 18, 2003. The '367 application was filed on September 22, 2003. Although the filing date of the

present application under 35 U.S.C. §371 is October 13, 2005, the present application was submitted to the Patent Office on March 21, 2005, about a year and a half after the '367 application was filed.

In view of the overlap of claims between the present application and the '367 application, the undersigned has been instructed by Swedish counsel to file in the '367 application an Express Abandonment of that application. This Express Abandonment is being filed on the same date as the submission of this Supplemental Information Disclosure Statement. If the Examiner has any questions regarding this matter, he is urged to call the undersigned at the telephone number below.

If a fee is required for the filing this Supplemental Information Disclosure Statement, the Commissioner is authorized to charge such fee to our Deposit Account No. 14-1140.

Respectfully submitted,

NIXON & VANDERHYE P.C.
